Snowden on Privacy and Threats to Democracy

1. What does the expression "face the music" stand for?

A. Let the American justice decide on whether Snowden was right or wrong to leak the confidential data.

2. What would be the consequence of Snowden's decision not to flee?

C. The government would get rid of Snowden too easily hushing the matter quietly.

3. What is the Espionage Act of 1917 particular about?

C. The defendant does not stand a chance given how the law is drafted.

4. How have things changed concerning data and law regulations since 2013?

"This program may be unconstitutional but if you cannot prove it exists, we ..."

General Data Protection Regulation (GDPR)

Web traffic is more encrypted

5. Why does Snowden continue discussing the matter publicly?

6. Was the NSA program that Snowden reported on effective?

7. What is behind mass surveillance?

8. How does data collection affect you even if you are innocent?

9. What solution does Snowden suggest?

10. Do you agree with Snowden? To what extent should the government be entitled to access our personal data? Why yes, why not?

Should the government have any need for my data, I feel like I should be informed of what and for what purpose they want to collect it and that I should have the right to refuse.
